

Designing *clarity* for complex products.

About Me

I'm a Product Designer with 5 years of experience in a fast-paced startup environment. I create intuitive, user centred products grounded in real customer insight, simplifying complex systems with a focus on clarity, usability, and measurable impact.

My Path

EXPERIENCE

Product Designer - Blokur & Music Reports
April 2021 - Present

- Increased Blokur client signup conversions by 17.5% through data-driven UX improvements and experimentation.
- Built the company's first end-to-end Design System, improving consistency and accelerating product delivery.
- Worked on product design across two brands post-acquisition, balancing continuity with distinct user and business needs.
- Embedded user testing, analytics and experimentation in the product workflow to drive more informed design decisions.

EDUCATION

MBA Essentials
London School of Economics (LSE)

Core MBA foundations in business strategy, leadership, finance, and organisational decision-making, directly informing product prioritisation. Strengthening alignment between user needs, business goals, and long-term growth

BA Architecture Degree
University of Westminster

Design-led degree focused on human behaviour, and problem-solving applied to real world complex constraints.

My Tools

01 - RESEARCH & COLLABORATION

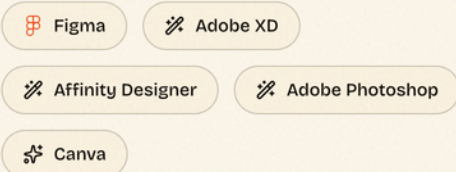

02 - PROJECT MANAGEMENT

03 - ANALYTICS

04 - DESIGN

05 - AI TOOLS & DEVELOPMENT
